To Whom It May Concern

Our business has dealt with Accelerate Physiotherapy for the last 3 years.

Drivetech Ltd provides driver licensing and endorsements for Heavy Vehicles (Class 2,3,4 & 5), Forklift (F & Osh) plus attachments, Wheels, Tracks & Rollers Endorsements, Dangerous Goods, Vehicle Recovery, Passenger Endorsements and Motorbike Basic Skills Test. All by Industry experienced assessors.

Within some of our trainings we have Unit Standards on Lifting and Back Care. This is very important because lifting and bending is required due to the heavy nature of the jobs we train people for.

We are very appreciative of being able to call upon the physiotherapists at Accelerate Physiotherapy to offer their expertise and knowledge in these areas. Our students come out of our National Certificate course with a better and higher level of understanding of lifting techniques, as a result of the education sessions. We hope this reduces the number of injuries to drivers and missed work days for employers. The students thoroughly enjoy the interactive and practical discussions.

We have no hesitation recommending Accelerate Physiotherapy as a professional and caring clinic to others.

Your's sincerely

Jackie Scott-Frew
